Haha! In English you are likely to address your own father as 'Dad' but refer to him as 'my dad' when speaking about him to other people.. Grandfather As a child you may have lovingly sat in the lap of your ojiichan (おじいちゃん) but you then grew up into a total bro who just doesn't GAF and you call your grandpa and other old men jijii (Kind of the equivalent to 'Old Fart').

Older sister In English it is the norm to refer to a sibling by their name, but in Japanese you have to show respect to your elders and that includes your older siblings! The standard way to address an older sister is with onee-san (おねえさん) and its variations.. It depends on your relationship with your parents, on your personality or even on whether you are addressing them directly rather than talking about them.. Friday, April 13, 2018 Family Members in Japanese - List of Words How do you say 'mom' and 'dad' in Japanese? The truth is that there is no single answer.. For example, onii-chan seems like something that would be uttered by a younger sister who idolises her strong and kind elder brother.

However, you generally find it written in hiragana (おじいちゃん) Uncle You can refer to your uncle as oji-san (おじさん) and like above, being called this for the first time may be the moment where a male character realises that he's getting on a bit.. As you will know if you have read the first article, the '~san' is a polite honorific ending.. A few more family words The next couple words are not usually used to refer to members of one's own family, but I feel that they wouldn't be out of place in this article.

Japanese family members name

As well as being used to refer to your own aunt, it can be used to address strangers of a certain age.

Japanese family members worksheets

'o' is just a nice prefix to sound more refined and make the words sound more beautiful.. It seems very close to oba-san (おばさん) so be sure to listen out for that long 'aa'! You may refer to your grandma as sobo (お婆) to outsiders, but call out to an old woman using obaa-chan (おばあちゃん).. This can be a cause for hilarity in anime, as the character will insist that they are a young onee-san rather than an oba-san approaching middle age.. To refer to one's own mother, one is likely to use haha (母) to people outside the family.. Fun fact: There are different kanji that can be used to write oba based on whether the aunt is younger (おば) than your parent or older (お婆).. Be careful not to get this confused with obaa-san (おばあさん), the word for 'grandma'! Unlike most of the other phrases we've learned today, the 'o' is not a beautifying prefix and it can't be taken out.
